For interesting miscellaneous articles see Supplement.

THE PACIFIC NEWS

FOR THE STEAMER, will be ready for delivery on Friday, the 30th inst., at 12 o'clock. The "News" for the next steamer will contain its usual variety of local and general information, review of the market, price current, and an exceedingly well drawn engraving, representing

The Town of San Francisco, and the surrounding country.

The Gold-bearing Quartz of California--

Mr. King's Report on the subject to the State Department--Mr. Wright's Specimens and Investigations.

In our last publication, we alluded briefly to the interest which had been excited here by the exhibition of some fine specimens of gold-bearing quartz, said to be found in inexhaustible masses or quarries, through the whole mountainous region, which forms the western slope of the Sierra Nevada. We have since had an opportunity of examining these specimens, and of learning, more minutely, the character of the rock, the tests to which it has been subjected and the results which it has given. We desire to avoid all exaggerated statement upon a subject in regard to which the attention of the world is already sufficiently awakened, yet we deem it not too much to say that the facts thus indicated in regard to the character and structure of this vast mountain range, appear to us altogether to surpass, in importance, any previous discoveries in the Gold Region, which have yet been made public. We are glad to learn that the whole subject will very soon be brought, in an authentic shape, to the attention of the public, in the form of a full and comprehensive Report to the Department of State, at Washington, by the Hon. T. Butler King. As early as June last, Mr. King devoted two entire months to a laborious exploration of the whole region, and fully matured his conclusions in regard to it. His labors were interrupted by a severe and protracted illness, but his Report will now soon be completed, and will doubtless, we trust, reach Washington before the discussions upon the California question shall have come up in Congress. We hazard nothing in saying that the facts and the views to be set forth in this Report will command the public attention and interest, to an extent almost, if not altogether, unexampled by any similar document. As Californians, we await its publication with impatience. Mr. King, we learn, will take to Washington with him, a full collection of specimens of the gold forma-

tions, both pure and in union with the quartz, which will fully illustrate and demonstrate, with almost mathematical clearness, his theory of the Gold Region of California.

The particular specimens which we have seen, of these quartz mountain quarries, are in the possession of Mr. Wright, one of the Members of Congress elect from California, who will take them on to Washington, in the steamer of first December. They consist, for the most part, of small pieces of quartz rock, generally of a brownish tinge, and, in some instances, presenting the appearance of a slight incipient decay, or decomposition, of the rock formation. In all these specimens the gold points, or particles, are very slightly, if at all, visible to the naked eye. The microscope, however, reveals the gold more clearly. Besides these pieces which Mr. Wright has himself selected, with great care, as the fairest average samples of the general appearance of enormous and very numerous veins, or quarries, of quartz, there is also one larger fragment of the same rock, weighing, we should suppose, some ten or twelve pounds, from all parts of which the gold protrudes plainly, in a state almost pure. This single fragment of quartz, which Mr. Wright by no means regards as an average sample of the quarries, but which he pronounces to be the richest rock specimen he has seen, is found, by the most careful specific gravity test, as applied to it by Mr. Wright, to contain pure gold to the amount of about *six hundred dollars*. This piece of rock, we understand from Mr. Wright, is destined to be laid (as a *Memorial from the California mountains*, we suppose,) upon the table of the Speaker of the House of Representatives. Its appeal, we think, will be heeded.

But the interest or importance attaching to this or to any other single and isolated fragment specimen, however peculiar and curious and rich in itself, is very slight and even inconsiderable, in comparison to that which belongs to the more numerous fragments of quartz, in which very little gold or none, can be discerned by the naked eye, and which have been cautiously selected by Mr. Wright on the spot as the fairest average specimens of whole veins and quarries, said to sweep visibly in sinuous and broken lines through the whole western slope of the Sierra Nevada, and to form vast masses of mountain rock large enough and numerous enough to freight many times over all the navies and commercial marine of the world. Mr. Wright has spent, he informs us, much of the past season among the mountains collecting his samples of the quartz in different localities and subjecting the yield of gold from them in very many instances to the most rigorous tests.

In all these experiments, Mr. Wright has been guided by the skill and judgment of Mr. Augustus Leland, a gentleman largely conversant with mining operations, and who has been from the first equally interested with Mr. Wright in all the researches which have been made.

The astonishing results brought out by these investigations is that in a particular and very extensive vein, *four pounds* of this rock yielded upon the average *eleven dollars*, worth of pure gold, valued at sixteen dollars to the ounce. That is to say, the yield of gold from these average samples of the rock in this particular vein, is *nearly three dollars for each pound of quartz*. Mr. Wright exhibited to us two small masses of gold, each about the size and shape of a large musket ball, and both presenting the granulated appearance of gold extracted and collected by the aid of quicksilver. One of these contains about twelve dollars of pure gold and is the largest yield which has been obtained from four pounds of the rock from the vein in question. The other contains about ten dollars and is the smallest yield which has been obtained from any of the experiments upon the rock of this vein. We understand that the tests applied have been sometimes the operation of quicksilver, and sometimes the test of the comparative specific gravity of the pure quartz and the gold bearing quartz.

The samples of the rock which Mr. Wright has tested, have been taken from many different veins. In no sample tested, has the yield been less than *one dollar to the pound of quartz*. The average yield of the different veins has been, as determined by the samples, from one dollar and a half to two dollars, to the pound of rock.

A single fact will show the unheard of, and astonishing character, of the results which have been thus arrived at. Mr. Wright informs us that he has recently conversed with an intelligent gentleman, now in this country, who has been long conversant, in the capacity of an overseer, with mining operations, as carried on in the quartz veins of Georgia. From this source, Mr. Wright learns that a fifteen horse steam power, working twelve stamps, will stamp about a thousand bushels of quartz rock in a day—each bushel of quartz weighing about eighty pounds. If *twenty-five cents* worth of gold is yielded from each bushel of eighty pounds, the business is considered a good one, in Georgia. If the yield be *fifty cents* to the bushel, the profit is large. Now the yield of the rock which Mr. Wright has collected and tested, instead of being a quarter of a dollar, or half a dollar to the seventy-five pounds, is, in one great vein, *nearly three dollars to one pound!* Abate this, in view of

possible or probable mistake, or in view of the superior yield of a single richer vein, to an average of two dollars, or of one dollar, or of half a dollar, to the pound, and the result still remains, in every point of view, almost equally unexampled and momentous. The whole question is, does gold-bearing quartz, making any approximation to any such yield, exist in California, in vast and inexhaustible masses? On this main point, the recent investigations of Mr. Wright, coincide entirely, with the observations and conclusions of Mr. King, and with the testimony of all the explorers of the region with whom we have conversed. They all agree that a large number of veins of quartz, permeate visibly the western slope of the Sierra Nevada, running, mainly, from north to south, and throwing out branches from the main lines, at intervals, in every form, and in all directions. Mr. Wright, we learn, is so well assured of the reality of the results at which he has arrived, that, in connection with his partners, he has already, at a large expense, placed a number of men at work, on one of the localities which he has observed, and which he states to be, apparently, scarcely more promising than many others—has sent for a mule load of quartz rock, to take with him to Washington, across the Isthmus—and has already forwarded to the Atlantic side, a large order for machinery suitable for the mining operations which he contemplates.

In conclusion, we have only to add that we put forth such statements as these under a full sense of our responsibility to the public. We aver nothing of our own knowledge, for to us this information is as new and as surprising as we are persuaded that it will be to most of our readers, both here and in the Atlantic states. We would say nothing inconsiderately to aggravate the *gold mania* anywhere. It has already produced, in the gold region of California, and on the routes to it, terrible scenes of individual suffering, disease and death—scenes before which the boldest spirit may well quail, and from which the hardest frame may well shrink away. But our information comes to us at first hand, from sources of unquestionable integrity and intelligence, and appears to be the result of very thorough and deliberate investigation. In its general outlines it has had the full sanction of the most eminent minds among us. It apprises us of a state of facts of the highest importance to California, to the mining interest every where, and, in a word, to the whole commercial and financial world. If these facts turn out to have been accurately investigated, and accurately stated, it seems to us that neither in the wet diggings, nor yet in the dry diggings, are the future mining operations of this State to go on; but, on the contrary, in those primeval masses of rock in which the gold was formed, in which it still lies embedded and inexhaustible, of which all the gold, in all its forms, scattered through the ravines and bars of the rivers, is only the inconsiderable chance washings or abrasions, and which the

hand even of the most adventurous and intrepid never, among us, has yet scarcely touched. Such information, so derived and so vouched for, we have deemed it our duty to lay before the public without delay.

A Good Suggestion.

We publish with pleasure the following communication from a correspondent. It refers to a topic which has often presented itself to our own minds, and which must, we think, have struck the mind of every thinking man in our community. Some such public movement on the part of the respected clergymen now laboring among us would unquestionably be attended with a good result, and we cannot doubt that they will all be glad of an opportunity to unite in making it. Our community is full of all the elements of physical and moral force. It breathes constantly an atmosphere of intense excitement, and probably no other society on the face of the earth presents greater temptations to the young, the ardent, and the inexperienced to fall into that class of fatal vices against which our correspondent has directed his appeal.

To the Editor of the Pacific News.

SIR:—I beg through the medium of your journal to suggest to the learned and reverend gentlemen whose duty as well as desire it is to suppress as much as possible the vast amount of dissipation in this country, with its attendant tendency to *suicide*, that they should draw up a concise and energetic appeal to all emigrants coming to these shores, showing them the peculiar dangers to which they are here exposed by any departure from or any relaxation of those moral and religious principles and habits of life to which they may have been accustomed at home. An admonition against the ruin which is involved in gambling, and a statement of the great benefits arising from the formation of a temperance society (in which these reverend gentlemen might take the lead) would be appropriate topics in the paper they might put forth.

Arrangements can be easily effected for furnishing every vessel with such an appeal to the emigrant, and I would recommend that some such paper should be immediately drawn up. After service on Thanksgiving day a meeting might be held, and such an appeal adopted embodying the views set forth in the most concise form, to be signed by all the clergymen and such members of their respective congregations as might see fit to unite with them in the object to be attained.

ROBBERY.—A tent was entered, at the head of Sacramento st., yesterday (Wednesday) morning, during the absence of the occupants, and two trunks broken open, one of which was robbed of what money it contained. The trunk robbed belonged to a young man who had deposited therein one hundred and twenty dollars, in dust, packed in a manner suitable for shipment, it being his intention to send the same by the steamer on the 1st of December. The other trunk also contained one hundred and forty dollars, but luckily it escaped the attention of the thief. The occupants of tents ought to be careful about leaving money or other valuables thus carelessly exposed.

PUEBLO DE SAN JOSE.—We are gratified to learn, from Messrs. Turner, Fish & Co., that they will, in future, run the steamer Sacramento tri-weekly to this interesting point. She leaves Central Wharf on Saturday morning, on her first trip, and returns on Monday morning, thus affording a fine opportunity for those disposed to pass a pleasant Sunday in the country. For particulars, see advertisement of Messrs. T., F. & Co.

CITY ITEMS.

REPORTED FOR THE NEWS, BY "BOSTON."

There is nothing before either of the Courts of public interest.

It blew a heavy gale last Tuesday night, and although the harbor is packed full of shipping, we have heard of no serious damage. The store ship moored at the end of the wharf, at Clark's Point, together with the steamer Senator, laying outside of her, broke from their moorings and drifted out into the harbor, where they dropped anchor. The Senator left at 8 o'clock, on her regular trip to Sacramento City.

Persons wishing to subscribe to the New Orleans Weekly Delta, can do so by calling on Mr. J. Judson Ames, at the Merchants' Exchange, on Washington street. Terms, three dollars per annum, in advance.

A trunk was stolen, last Sunday night, about 10 o'clock, from the Verandah Restaurant, containing clothing and other articles valued at \$300. The thief was caught soon after leaving the house, and taken to the calaboose. While the owner of the trunk was gone to the Alcalde's to get out a warrant, the thief quietly walked out of the room, and has not yet been taken. In justice to the police, we would state that there was no officer placed over the prisoner—hence his escape.

ANOTHER DEAD BODY FOUND, on Clark's Point, Tuesday morning. The Sheriff summoned an inquest, who returned a verdict that the deceased came to his death by chronic diarrhoea. From papers found on his person, it was supposed that his name was E. F. Hine, from Texas.

The "House Warming," at the new Chinese Restaurant, on Jackson street, Saturday night, was, we are informed, quite a *spiritual* affair.

We acknowledge the receipt of two pieces of music, from Mr. Atwill, (of Atwill's Music Saloon, 300 Broadway New York,) who has established a branch at San Francisco, on Washington street, above the Custom House. The high reputation of Mr. Atwill, in the line of his profession, renders it unnecessary for us to say a word in commendation of his establishment here. Persons in want of good instruments or popular music, will not fail to apply to him.

A meeting of the Master Builders, of San Francisco, will be held next Monday evening, Dec. 3d, 1849, at 7 o'clock, in the Ball room of the La Belle Union. Punctual attendance is requested.

C. G. SCOTT, President.
Joseph Gosling, Sec'y Pro Tem.

Q In accordance with the Proclamation of the Governor, appointing a day of public thanksgiving, services will be held at the Baptist church, Washington street, on Thursday, 29th, at 11 o'clock, a. m. A sermon may be expected from the pastor. The public is respectfully invited to attend. xli o

NOTICE.—The congregation of the First Presbyterian church will observe Thanksgiving Day, Thursday ensuing, by holding religious services, at 11 o'clock, a. m., in the large tent, situated upon their church site, in Dupont street. A thanksgiving discourse will be delivered by the Rev. Mr. Williams. xli

Q Divine Service will be held in the Church of the Holy Trinity, corner of Powell and Jackson streets, on Thanksgiving day, Thursday the 29th inst. at 11 o'clock. xli o

DIED.

In San Francisco, Nov. 24, of dysentery, Silas Estabrook, printer, of Boston, Mass. On Feather River, 7th inst. Carlos W. Fuller, of Athens, Ohio. At Hawkins' camp, Tuolumne mines, Nov. 10, of bilious fever, David Cook, a native of Dorchester, Mass., aged 22. Boston papers please copy.

MARINE INTELLIGENCE.

Port of San Francisco.

ARRIVED.

Tuesday, November 27.

Am ship Montana, Austin, 180 days fm Bangor, 2 passengers.
French ship Alcibide, Orable, 50 days from Valparaiso, 19 passengers.
Am ship Jacob Perkins, Collins, 176 ds fm Boston, 4 passengers
Am bark Madonna, Flanders, 12 ds fm Oregon, 6 passengers; to B. Stark.
Br sch Coquette, Elliott, 80 days from Sydney, 4 passengers.

CLEARED.

Tuesday, November 27.

Am ship Orpheus, Freeman, for Valparaiso; Br ship Wm. Melville, Thomas, Honolulu; Am bark Keoka, Hall, Oregon; Br bark Crishna, Spence, New South Wales, via Honolulu.

Wednesday, November 28.

Hamburg ship Burgomeester Jansen, Matthieson, sandwich Islands; French ship Cinq Freres, Pille, Valparaiso; Equadorian brig Hoven Celinda, Tibonnell, sandwich Islands.

SUTTON, BENNETT & CO., Commission merchants and wholesale dealers in groceries, provisions, wines, liquors, lumber, &c, Montgomery street, San Francisco. O. P. Sutton, F. C. Bennett, G. Beck.

We have now in store, a full assortment of desirable goods, adapted to this market, consisting of
500 1/2 and whole sacks chili flour,
200 bbls mess and prime pork,
50 do do beef.
400 boxes English cheese,
200 do sperm and tallow candles,
100 sacks rice,
100 do Sandwich Island salt,
50 boxes table ditto,
150 sacks Java coffee,
170 boxes macaroni and vermicelli,
50 " ground Java coffee;
95 " castile and brown soap;
200 " black and green teas;
100 M superior Havana cigars;
90 boxes Burgundy port wine;
75 " St. Julien claret;
150 baskets champagne;
64 cases cognac brandy;
50 " Schiedam gin;
100 bbls London porter and ale;
Also, saleratus; pickles; dried fruit; white and brown sugars; counter and platform scales, and a variety of other goods, all of which will be sold at the lowest market price. [xlii j] S. B. & CO.

GALVANISED Iron House, 10x15 feet with four glazed windows, with shutters, wooden base boards, ridge piece and door frame. The house is grooved, and it is said can be set up and taken down in three hours. Also, 30 bbls. flour in excellent order, for sale by
xlii u Cooke, Baker & co.

NOTICE.—James Collier, Esq., Collector, has appointed Abraham Kintzing, Jr., and Abraham C. Labatt, appraisers for the Port of San Francisco. November 17, 1849. xxxviii j

TO THE MERCHANTS.—The subscribers, appointed by the Collector Government Appraisers for the Port of San Francisco, offer their services as appraisers for all merchandise damaged, or otherwise not subject to the customs.

Abraham Kintzing, Jr.,
Abraham C. Labatt.

Office at the Custom House. xxxix tf

FOR SALE, Freight or Charter. The brig Eveline, just arrived from Hong Kong, 196 tons register, built of white oak, and with full inventory.

Lovering & Gay,
montgomery street. xlii u*

SPERM CANDLES.—Port wine in 20 gall kegs; brandy in cases; whiskey in bbls and 5 gall kegs; gin; rum, &c., with a general assortment of merchandise in store and for sale by Winter & Latimer, montgomery street.

Also just received, 150 doz. best English Ale, and 15 tons coarse and fine Liverpool salt. xlii u

FOR SALE. 8 splendid Oil Paintings, in gilt frames, admirably adapted for a public saloon. Inquire of Endicott & Greene, montgomery street. xlii tf

LEONARD & TAY offer for sale, at the lowest market prices,

Mess Pork,	Molasses,
Mess Beef,	Tea,
Superfine Flour,	Dried Apples,
Lard,	Pickles,
Candles,	Vinegar,
Sperm Oil,	Soap,
Sugar,	etc. etc. etc.

At the foot of Washington street, fronting the bay.

N. B. Purchasers of goods from us, for shipment up the rivers, will save cartage, as the goods can be taken from store tackle into lighters. xlii o*

A Desirable Office for Rent. A roomy, well lighted, lower front office in Clay, between montgomery and Kearny streets. Has closets, and rear office, or bed room, attached, with a separate entrance. Will be rented low, if applied for soon. Apply to Taylor & Van Beuren, corner clay and Kearny streets. xlii u*

JAS. D. GALBRAITH, ARMAND GUYOL, HENRY J. MCKINLEY, GALBRAITH & CO., Auctioneers and Commission Merchants,

Montgomery street, between Washington and Jackson streets, San Francisco, Cal. All Auction sales cried in the English, French and Spanish languages, by one of the firm.

Their warehouse being on the bay, with a wharf attached, consignments to them from on ship board will not be subject to wharfage or drayage, thus saving a very important item of expense to consignors. Goods received on storage. xlii tf

TO RENT.—Several fine offices and comfortable sleeping apartments, fitted up with two or more berths, upon the second story of a new building on Montgomery street, between Jackson and Pacific streets. Persons desiring to locate themselves for the winter, cannot find a more favorable opportunity to do so than the one which offers. The building is situated upon dry ground, and believed to be, in every respect, water proof. Upon the premises are a privy and a well of fine water, to which the tenants can, at all times, have access. Apply on the premises, or to Thomas Whaley,

At George Wardle & Co's., Montgomery street, near Pacific. xlii o*

FOR Pueblo de San Jose. The steamer Sacramento, Capt. Maaran, will leave Central wharf, on Saturday morning next, 1st Dec. at 8 o'clock, a. m. for the above place, and return to this city on Monday.

Fare through..... \$22 00
Fare to the Embarcadero..... 18 00

For freight or passage apply to the Captain on board, or to Turner, Fish & co, sacramento street, between montgomery and Kearny streets. xlii tf

GLADWIN, WHITMORE & CO., General Commission Merchants,

Montgomery street, corner Clay, up stairs, and Warehouse foot of California st.

WM. H. GLADWIN, H. M. WHITMORE.

ADMINISTRATOR'S NOTICE. The un-
 dersigned has been appointed by Hon.
 John W. Geary, Judge of Probate, in and
 for the District of San Francisco, Admin-
 istrator of the estate of J. K. Wing, de-
 ceased. All persons are therefore forbid-
 den to make any payments of debts due to
 the said estate, except to me; and all per-
 sons owing debts to said estate are re-
 quested to make payment of the same im-
 mediately. George H. Bull,
 at the American Hotel.

Dated at San Francisco, Nov. 28, 1849.
 xlii u

TO LET. A large and beautiful House,
 situated on Jackson, near Kearny
 street, with a yard having two entrances.
 By its situation, this house can be render-
 ed very convenient for any person desir-
 ous of engaging in two or three different
 lines of business. It is very well adapted
 to the purposes of a market, such as beef
 market, vegetable market, fish market,
 &c. The house is also by its locality well
 adapted for a cafe or restaurant. If the
 person desirous of leasing the said build-
 ing should wish to have another story ad-
 ded to the same, the les-or is willing to
 have it done on terms convenient to the
 lessee. For further information apply to

GERMAN HOSPITAL. Dr. Charl.
 Precht gives notice to the public that
 he, with the assistance of Dr. Praslow,
 has established in this town, a German
 Hospital (Broadway, corner of Stockton,
 above Dupont street,) and hopes that those
 acquainted with the circumstances of this
 place will hail the establishment and pro-
 mote its welfare. A sufficient number of
 rooms, beds, and all requisites of a good
 Hospital, as well as an extensive assort-
 ment of medicines, are in the house
 to meet immediately every demand. A
 lady is also engaged as housekeeper and to
 superintend the cleanliness and cookery.

The charges for admittance, medical at-
 tendance, medicines, board and lodging,
 will be moderate. Sufferers of ALL nations
 will therefore find a refuge and home, a
 good treatment and safe cure.

The undersigned feels grateful to the
 public, who from his arrival have bestowed
 upon him so great a confidence, which
 he will endeavor to deserve and confirm.

xlii c* C. Precht, M. D.

**ROBERT BECK, vs. Jas. K. Kelly, Ed-
 ward J. Smith, Harrison Levi, James
 M. Duncan, John F. Hayes, William A.
 Kelly, James G. Smith, Wm. Scott, Abra-
 ham Vandeling, J. McMorrow, D. C. Sa-
 lisbury, Edmund D. Hammond and Hugh
 Campbell.**

The defendants aforesaid are hereby no-
 tified that the plaintiff aforesaid has com-
 menced an action against them, before the
 Hon. William B. Almond, judge of First
 Instance, within and for the District of San
 Francisco, California, and their property
 and effects, rights and credits attached, to
 satisfy the amount claimed in plaintiff's
 petition, together with costs of suit—and
 that unless the said defendants appear in
 said town of San Francisco, at the court
 house, before said judge, on or before the
 first day of December, A. D. 1849, and show
 cause to the contrary, said property and
 effects, rights and credits, will be subject-
 ed to the payment of plaintiff's said de-
 mand. By order of court, Robert Beck.

MISCELLANEOUS.

"PUNCH" ON THE ACOUSTIC DEFECTS OF THE NEW HOUSE OF PEERS.—The difficulty of hearing in the House of Lords is frequently the cause of a cross game being played of plain questions and crooked answers. The following report of an unreported debate may give a happy notion of the mistakes that are constantly occurring:

Lord Brougham begged to know whether anything had been done with Sardinia?

The Marquis of Lansdowne was pained in being obliged to remind the Honorable Lord, that the duty had long ago been taken off sardines.

The Earl of Ellenborough said, that had nothing to do with the original question; and he would ask, seeing the venerable Duke in his place, if any measures had been taken at the Horse Guards to provide against the growing scarcity of bears.

The Earl of Galloway would answer that question, and confidently state that the conduct of the reporters in that matter was most disgraceful. He should divide the House upon it.

Lord Redesdale was anxious to know if a Railway Bill would be brought in this session for the better provision of navigators?

Lord Stanley would take upon himself to answer that inquiry, and would boldly state, if the provisions of that atrocious bill were passed, that the seas of the world would soon be swept of every English navigator. (Hear, hear.)

The Earl of Wicklow wanted to be informed what would become of the marble arch at Buckingham Palace?

The Marquis of Clanricarde admitted that the evil ought to be stopped, or else we might expect to see it running all over the kingdom. He would ask the Honorable Lord opposite if any steps had been taken about the quarantine?

The Earl of Minto, upon being thus appealed to, could not help thanking the noble Lord for the great courtesy he had displayed in putting his question.

Lord Brougham would like to know if any instructions had been sent to the British Ambassador at Stockholm to protest against the marriage of Jenny Lind with any but a British subject?

The Earl of Minto admitted that a great wrong had been done, but he doubted strongly if it constituted a statutable offence. However, the public must be protected, and notice had already been given, that upon a repetition of the offence, the British government would not shrink from doing its duty. (Loud applause.)

Lord Brougham would ask another question, and then he would be satisfied. He felt a great interest in knowing whether it were true that the trustees of the National Gallery had refused a most liberal offer from a gas company to light up the Vernon Gallery, free of expense, providing they might have the pictures that had been already damaged or destroyed? and, again, whether it was true that the Roman Triumvir had sold the Apollo Belvidere to Madame Tussaud for the paltry sum of five pounds?

The Marquis of Lansdowne admitted the great importance of the subject, but must decline answering it till to-morrow, as he had not the requisite papers with him to refer to. In the meantime, he could assure the House that not a single Roman candle had been sent from Vauxhall to the relief of the Triumvirate. (Cheers from all parts of the House.) The Lords then adjourned.

At a convention of clergymen, not long since, it was proposed by one of the members, after they had dined, that each man should entertain the company with some interesting remarks. Among the rest, one drew upon his fancy and related a dream. In his dream he went to heaven, and he described the golden streets, &c. As he concluded, one of the divines, who was somewhat noted for his penurious and moving-saving habits, stepped up to the narrator, and inquired jocosely:

"Well, did you see anything of me in your dream?"

"Yes, I did."

"Indeed? what was I doing?"

"You were on your knees."

"Praying, was I?"

"No, scraping up the gold."

WONDERS OF CHEMISTRY.—Aqua fortis and the air we breathe are made of the same materials. Linen and sugar, and spirits of wine, are so much alike in their chemical composition, that an old shirt can be converted into its own weight of sugar, and the sugar into spirits of wine. Wine is made of two substances, one of which is the cause of almost all combustion on burning, and the other will burn with more rapidity than anything in nature. The famous Peruvian bark, so much used to strengthen stomachs, and the poisonous principle of opium are found of the same materials.

Faithful daguerreotypes have been taken in the city of Dublin, by an ingenious artist, by using terrestrial instead of solar lights. The light employed was the famous electric, producing pictures with a marked fidelity of outline and delicacy of shade which elicited admiration.

FACTS IN BUILDING.—One fact is, that a square form secures more room with a given cost for outside walls, than any other rectangular figure. Great length and little width may afford convenient rooms, but at an increased expense.

Another fact is, that ventilation is an essential in a human dwelling. No other consideration should exclude this. The halls, windows, and doors should be so situated with regard to each other, that a full draught of air can be secured, at any time, in the summer season, by day and night through the whole house. The stories should also be sufficiently high to afford a sufficiency of air in all the rooms. Nine feet is a good height for lower rooms, and eight for upper. Bedrooms should also be larger than they commonly are. Great injury to health is the result of sleeping in small close apartments.

The third fact is, that a steep roof will not only shed rain and snow far better than a flat one, but will last immensely longer.

The fourth fact is, that a chimney in or near the centre of the building will aid to warm the whole house, while if built at one end or side, the heat will be thrown out and lost.

The fifth fact is, that a door opening from the outside into any principal room, without the intervention of a hall or passage, costs much more than it saves, in the free ingress of air into it.

The sixth fact is, that the use of paint is the best economy in the preservation of wood.

The seventh fact is, that if the front door is made at one side instead of the middle of the front, a partition will be saved, and for small houses this should not be forgotten, but for large houses, have the main door and lobby in the middle of the house.

The eighth fact is, that the choice of a situation is of as great, if not greater importance.

RAILWAY TRAFFIC.—From a return relative to the passengers and goods traffic on all the railways in the United Kingdom during the half year, ending the 31st of December, 1848, it appears that 3,743,602 first class, 12,191,549 second class, 7,184,033 third class, 8,450,623 Parliamentary class, and 60,485 "mixed" passengers were conveyed over the railways during that period, making a total of 31,630,292 passengers. The receipts were—for first class passengers, £1,003,516; second class, £1,360,468; third class, £320,863; Parliamentary do., £597,072; and mixed, £1,382—total receipts for passengers, £3,283,302. The receipts for goods, cattle, carriages, parcels, and mails, amounted to £2,461,663, making the total receipts £5,744,965 for the half year. The number of miles of railway open at the commencement of the half year was 4,433 1-2, and at the end of it 5,079 7-8, showing an increase during that period of 645 3-8 miles. Assuming the average mileage at 4,756, the receipts per mile on the whole would average £1,208.

COOL PROCEEDINGS OF THE ORIENTAL LADIES.—During the hottest months, when the thermometer is often at the height of 120 degrees Fahrenheit, the ladies wear a silken garment and slippers but no stockings. At night, it is the custom to sleep on the terraces, at the top of the house, in the open air, the ladies, the men, the children, and the domestics, having each their separate terraces. Strange as it may sound, it is by no means an uncommon practice with the ladies in Bagdad, in the months of July and August, to steep their night clothes in cold water, which is slung up for this purpose, in skins, in order to keep it as cool as possible. Having done this, they put them on, wringing wet, and again retire to beds of palm branches, to enjoy refreshing slumbers. Notwithstanding this practice, rheumatism is rarely heard of in that country.

JUST received by Mary & Evelina, and for sale by Osborn & Brannan, at their warehouse, a choice selection of China goods, consisting of crapes shawls, scarfs, satins, plain and figured, checked matting, camphor trunks, ivory and lacquered ware. Montgomery street. xli j

IN REPLY to a card, published in the Alta California, of 22d instant, we will, at this time, merely say that the writers of that are mistaken in supposing we design to injure them; but we wished, in justice to ourselves, to correct a wrong impression that their flag was calculated to give to the public. We also deny that there was anything "malicious" in the "character" of our article of the 17th instant, but merely a desire to assert our rights, which we shall ever maintain. But if they are disposed to treat it as such, we say "lay on," etc., and we will hereafter answer "A Card" more fully, and give whatever else may emanate from them such attention as it may merit.

Simmons, Lilly & Co. xli f

PERSONS having goods stored at Ward & Co's, such as trunks, &c. are hereby notified, that if not removed in one month from date, they will be sold at public auction to pay expenses. San Francisco, Nov. 1. '49 cu

NOTICE.—The undersigned, residing in the town of Pueblo de San Jose, in Upper California, hereby respectfully informs the public generally, that he owns in the town aforesaid and adjacent to said town, a number of lots, which are unimproved, and which he is desirous of selling or leasing for a number of years, upon fair terms and at low prices, to those who will improve and settle on the same. He also owns several tracts of land in the vicinity of said town, which he also wishes to sell or lease in tracts or lots of almost any size, to such as will settle or improve and cultivate them. His main object is to afford such inducements to the industrious emigrant as to induce him to settle in this healthy and fertile valley, and engage in agricultural or mechanical pursuits. The public may be assured that terms will be accommodating in every respect. Apply to the undersigned, at his residence in said town. ISAAC BRANHAM. Pueblo de San Jose, Nov. 1. '49. xli f

Hoppe, Hawkins & Co., Pueblo de San Jose, RESPECTFULLY inform the public that they have purchased of Capt. Chas. B. Marvin his entire interest in the firm of Hoppe, Marvin & Co.

They hereby tender thanks to the citizens of San Jose, and the public generally, for the liberal patronage which has been bestowed upon the house. From the superior facilities possessed by them, they will be able to keep on hand every article of merchandise usually required, and prepared to sell at such prices as will give satisfaction.

Pueblo de San Jose, Nov. 1. '49. xli f

MERCHANTS EXCHANGE, San Francisco. The subscriber has completed a large Hall in the second story of the building recently erected by him, on Washington street, and proposes to open it on the 20th inst. for the use of the Merchants of San Francisco, and business men generally.

Newspapers from all parts of the world will be kept on file, and the shipping news collected daily. No effort or expense will be spared to gather such mercantile information and news of the day, as the present wants of the business community demand.

Half yearly subscriptions received from residents. Transient parties can subscribe by the week. Persons from the mines visiting San Francisco, may thus have access to the news from all quarters, and in addition, accommodations for writing letters will be furnished.

Letter bags for the various mails will be kept at the office of the Exchange.

EDWARD E. DUNBAR, To Let. Several offices, in the Exchange Building, suitable for lawyers, brokers, agents, &c. Apply as above, xxxi tf

NOTICE TO SQUATTERS.—The undersigned begs leave to caution the public in general against squatting upon his farms or ranchos, as follows: One farm on the river Sacramento, extending to the mouth of Feather river and American Fork, known as *Rancho del Paso*.

Also, two ranchos on the San Joaquin river; one of 3 leagues, granted to Don Hernandez by Gov. Micheltoreno, and adjoining the same; being one undivided half of 8 leagues granted by Gov. Micheltoreno to Balentine Heguiria, near the Public pass.

All persons are hereby notified to abstain from taking possession of any portion thereof, at the peril of being proceeded against according to law.

HIRAM GRIMES.

THE undersigned offer for sale, at moderate prices, the following goods, arrived from Hamburg, per bark Magalana, viz: boots, shoes, ready made clothing, stockings, gloves, blankets, quilts, sheets, towels, napkins, table cloths, clothes for ladies, silk, cotton and woollen goods, mantuaux, shawls, umbrellas, hosiery, sherry, port wine, vinegar, segars, tobacco, tea, stock fish, pilot bread, pearl barley, peas, seeds, fancy articles, kitchen and house furniture, cane bottom chairs, tin plates, milled zinc plates, thumscrows, carpenters' tools, safes, shovels, stoves, cutlery and all kinds of hardware, white lead, paints and oil, gunpowder, in canisters of lib., black printing ink, corks, guns, cologne water, medicine chests, complete, leeches, piano fortes, window glass, bricks, cement, stationery, billiard tables, a splendid phaeton, with harness complete, and numerous other desirable articles.

Foot of Sacramento st.

LOTS FOR SALE in the city of south San Francisco, offering the greatest inducements to persons recently arrived, who are desirous of locating themselves with superior advantages. The city of south San Francisco is situated two miles south of the city of San Francisco, immediately on the bay, having every advantage for the shipping, and is supplied with wholesome water in great abundance. A stream of sufficient quantity to supply both cities and all the shipping that ever may lay in their harbors, forms the northern boundaries of this place—is quite accessible and is about being conducted into reservoirs for that purpose. The harbor is more securely protected from the winds than the harbor of San Francisco, and ships of the heaviest burthen may at all times of the tide lay within a boat's length of the land at many points, and quite close along the whole front of the city, affording the best facilities to discharge cargo. The soil is free of dust, and is of a rich clay nature. There are extensive stone quarries, and springs of pure running water are in many places. The surrounding scenery is highly picturesque, and a more pleasant place for residences, or a more convenient place for business is not to be found on the bay. The only good road from the city of San Francisco to the Pueblo of San Jose passes through south San Francisco, crossing the mouth of Mission creek and the mouth of the stream of fresh water already alluded to. On this road you travel along a beautiful valley of firm grass land to the puerstuelo, a distance of less than two miles. Persons desirous of purchasing lots, which will wholly equal in value those of the City of San Francisco and provide for themselves residences on moderate and easy terms can do so by calling at the office of the undersigned in Clay st., where full particulars will be given them. HUNTER & BROTHER, Agent for the Proprietors.

A good House with everything necessary for the accommodation of visitors is now established at south San Francisco. xxiv tf

RARE CHANCE for investment of capital for business men. Business calling the subscriber to the United States, he offers the following most desirable property for sale.

The Buena Vista Rancho, situated on Jackson creek between Dry creek and the Mokelma river, on the main road leading from Sutter and Sacramento river, to the Mokelma, Stanislaus, Stockton, and the San Joaquin. On the ranch there is two large new corrals, large log buildings, three hundred head of beef cattle, three wagons and teams, horses, pack mules, saddles, etc. A large lot of provisions, mining goods, and Indian trade. This rancho is one of the most important trading posts in the mining district; the ranch is well supplied with water and grass; several hundred head of horses are pastured on the place, belonging to the miners, and the trade with miners and the Indians is very extensive; the roads from Sutter, Sacramento city and Stockton, are very superior. The above offers a rare opportunity for business men to invest capital; this trading post has been established over twelve months, and the most central post in the mines. For further particulars apply to T. B. Winston, Esq., San Francisco; Geo. McKinstrey, Jr. Esq., town of Sutter, or W. H. DIGGES, on the ranch. Buena Vista, Oct. 30, '49. xxix ea

TOWN OF BOSTON.—Lots at the town of Boston, beautifully situated at the junction of the American Fork and Sacramento rivers, are now offered for sale. The town of Boston is only a few hundred yards above Sutter's Embarcadero, on the north side of the American Fork, and in the immediate vicinity of the gold mines, and from its situation possesses superior advantages for business purposes. The land which forms the site of the town is twelve feet above the highest water mark, and the river is twenty-three feet in depth at the banks. It is believed that no place offers greater inducements for investors than this town, as in addition to the above mentioned advantages it has a fine climate, good soil, with an abundance of excellent water, and is free from inundation at all seasons. The town has been surveyed by Mr. J. Halls, and laid out in a convenient manner, and a plan of it can be seen, and any other information relating to it obtained on application to Hiram Grimes, } San Francisco; J. Halls, } or W. H. Tiffany, at Boston. iv tf

CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby notify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1849; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof, except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains; and that if its publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.

Any person desiring to satisfy himself of my title to the above land, is invited to call on W. H. Tiffany, at Boston, or on the undersigned, at his office, Sacramento street, San Francisco. Hiram Grimes

FOR SALE, to arrive—24 houses, 12 by 10, two stories, tin roofs, doors, windows and all complete, and can be put up at very small expense—built in Baltimore. Will be sold very reasonably, if taken from on board, and a model of same may be seen at counting room. Also, by same conveyance, 24 small size cooking stoves, with appendances complete. Winter & Latimer, Montgomery st., opposite Ward & Co's. xxxix u

THE HOSPITAL OF SAN FRANCISCO.

W. H. STIVERS, M. D. Resident Physician. Main entrance on the east or lower side of Stockton street, between Clay and Sacramento streets, south-west of and near the Post Office.

THIS establishment is composed of an extensive range of buildings recently erected, and formerly, in part, occupied for a Hospital by our fellow-citizen Dr. Melhado. Its arrangements are, in all respects, most commodious; on a scale, indeed, suited to the various and rapidly increasing wants of both citizens and strangers. The position is one of the best that could be chosen—elevated, healthy, and easy of access, with excellent water, and commanding a fine view of the bay. There is also attached to the premises an elegantly fitted up Bathing House, where cold, warm, hot and medicated baths may be had, at all hours. The Baths for the use of the public are entirely SEPARATE and distinct from those devoted to patients.

The Hospital of San Francisco is the first, and, in fact, the only Institution established on the Pacific coast, on a broad, liberal and sure foundation. It is a refuge for the sick—a home for the invalid, where comfortable quarters, good nursing, watchful medical treatment, and suitable diet will do all that human effort can do to alleviate suffering and restore to health. The Terms are placed on the most moderate basis, being in truth, about one-third to one-sixth less than the expenses necessarily encountered by the sick, under any other arrangement.

TERMS.

1st class, one in a single room, neatly furnished, \$16.00 per day.

2d class, two in a room, neatly furnished, each \$10.00 per day.

3d class, in wards, neatly furnished, each \$5.00 per day.

In all surgical cases, and cases of Insanity, there will be an extra charge.

NEW CITY HOSPITAL.—A home for the sick, on Kearny street, between Sacramento and California streets.

Drs. PAINE & COLTON have fitted up a new and commodious building at the above place, where they are prepared to receive patients on terms so low, that all who require medical attendance, will find it for their interest to place themselves under their care.

They have employed Dr. H. Pease as nurse, (and who will also superintend the culinary department,) and do all that kindness and care can do, to restore to speedy health those who may patronize the establishment.

For terms &c., call as above.

STOCKTON FORWARDING, COMMISSION AND REAL ESTATE AGENCY.

The subscribers, under the firm and style of HEATH and EMORY, have completed their arrangements in the city of Stockton, and are now prepared, at their office and warehouse, at the corner of first and El Dorado sts., to freight to any part of the southern mines: comprising the Moqueleamas, Angel's and Murphy's Camps, Wood's Creek, the Calaveras, Stanislaus, Tuolumne, Merced, Mariposa and King's rivers. Teams and pack mules will start from their establishment every day for the above places.

The prices of freight, the time of starting, and all other matters of interest connected with the mines, or the facilities of getting to or from them, may be ascertained at their office. Goods and baggage will also be stored with great care, the subscribers having for that purpose erected a large, water-proof, plank-floored warehouse.

The subscribers also offer for sale 15
